

NEW PREMIUM BEAM WIPER BLADES

Turning wind force into wiper pressure

MAXIMUM PERFORMANCE WIPERS ENGINEERED FOR TODAY'S INTENSE DRIVING ENVIRONMENT

Introducing ACDelco Premium Beam Blades, robustly engineered beam blades with an aerodynamic swept-wing spoiler that slices through turbulence caused by cross winds, buffeting truck winds and general traffic disturbances.

Designed with an innovative aerodesign, these high performance wiper blades control airflow and transfer it into maximum wiper/glass contact for a flawless wipe, providing excellent visibility in all driving situations.

Steel Memory Arched Technology

Glide treated rubber element for a smoother, quieter wipe

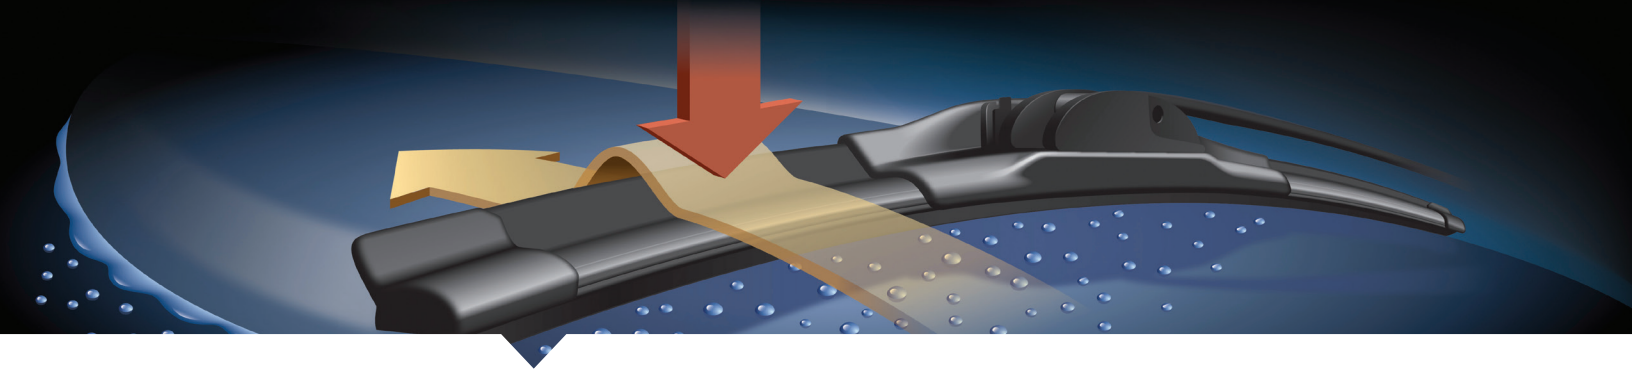

Robust superstructure for durable all-weather performance

Easy Connection Technology

Aerofoil converts wind force for maximum windshield contact

Tested to perform over 1.5 million cycles

Superior wipe

- Aerofoil provides maximum windshield contact by transferring wind force downward
- Engineered to conform to today's highly curved windshields

All-weather performance

- One-piece wiper structure resists snow and ice clogging
- Rubber element fully treated for a smoother, quieter wipe
