

NEW Disc Brake Pads

GOLD

The all new ACDelco Gold and Silver aftermarket brake products are the same high-quality parts you've come to expect from ACDelco, at a competitive price! The new aftermarket brake line has been consolidated which makes finding and ordering the right part easier – helping you get right to your brake repair.

ACDelco Gold Brake Pads are engineered to deliver OE-level braking performance, quiet operation, and long-lasting durability for a wide range of vehicle applications.

PRODUCT FEATURES – Ceramic & Semi-Metallic

- **Deliver OE-Matched Friction Formulations**
Platform-specific formulations are engineered and benchmarked to OE performance requirements
- **Certified Performance Standards**
Formulations meets FMVSS, NSF copper compliance, and AMECA standards
- **Enhanced Noise & Vibration Control**
Improved NVH performance validated through SAE-J2521 testing standards
- **Durable Backing Plate Construction**
Fine blank backing plates feature a black anti-rust powder coating for enhanced durability and corrosion resistance
- **Application-Specific Hardware Included**
Includes product-specific hardware where applicable, including piston clips, abutment clips, caliper locating clips and wear sensors
- **Premium Abutment Materials**
Teflon™-textured abutment kits help support smooth caliper movement and consistent braking performance
- **Advanced Multi-Layer Shim Technology**
Multi-layer Rubber-Steel-Rubber (R-S-R) shims with acrylic adhesive help reduce squeal, grinding, vibration, pedal pulsation and damping performance
- **Flexible Shim Attachment Design**
Shim attachment options include both clip-on and adhesive designs depending on application requirements
- **Deliver OE-Style Slot & Chamfer Design**
Including J-positive diagonal slots, help optimize braking performance, increase friction surface area, and reduce noise
- **Low-Dust Ceramic Formulations**
Engineered ceramic formulations help minimize brake dust and keep wheels clean

Part# 19537670 Semi-Metallic Pad Set

Part# 19538273 Ceramic Pad Set

NEW Disc Brake Pads

SILVER

ACDelco Silver Brake Pads provide dependable stopping performance, quiet braking operation, and excellent value for a wide range of vehicle applications.

PRODUCT FEATURES – Ceramic & Semi-Metallic

- **Application-Specific Formulations**
Platform-specific friction formulations are engineered and benchmarked to industry performance standards
- **Certified Performance Standards**
Formulations meet or exceed FMVSS, NSF copper compliance, and AMECA standards
- **Enhanced Noise & Vibration Control**
Improved NVH performance validated through SAE-J2521 testing standards
- **Durable Backing Plate Construction**
Fine blank backing plates feature a black anti-rust powder coating for improved durability and corrosion resistance
- **Application-Specific Hardware Included**
Includes product-specific hardware where applicable, including piston clips, abutment clips, caliper locating clips and wear sensors
- **Premium Stainless Steel Abutment Kits**
SUS301 stainless steel abutment materials provide enhanced strength, corrosion resistance, and durability
- **Advanced Multi-Layer Shim Technology**
Multi-layer Rubber-Steel-Rubber (R-S-R) shims help reduce squeal, grinding, vibration, and pedal pulsation while improving damping performance
- **Easy Installation Design**
Clip-on shim attachment design supports quick and convenient installation
- **Noise-Reducing Slot & Chamfer Design**
Industry-standard slots and chamfers help reduce noise, vibration, and braking harshness
- **Low-Dust Ceramic Formulations**
Engineered ceramic formulations help minimize brake dust and keep wheels clean

Part# 19537682 Semi-Metallic Pad Set

Part# 19537965 Ceramic Pad Set
