

# Professional NEW Starters and Alternators

ACDelco Professional Starters and Alternators are an alternative to General Motors Original Equipment but with all NEW components. Backed by a limited lifetime warranty and 100% validated for performance, you can be confident you're working with products you can trust. Our alternators are computer tested for voltage stability, terminal function and electronic circuit board integrity, while starters are tested for solenoid contact life, coil balance and pull strength. The drive gears and clutches are also assembled to tight specifications for even greater peace of mind.
