

As the Official Motor Oil of Chevrolet Performance, Mobil 1™ and Mobil 1 Racing™ advanced full synthetic motor oils are specially formulated to help keep your engine running like new.

Benefits of Mobil 1™

Mobil 1™ motor oils provide exceptional wear protection, cleaning power and overall performance to keep a wide variety of engines running like new.

Mobil 1 5W-30

dexos®-approved and utilizes a signature Triple Action Formula to deliver outstanding engine performance, protection, and cleanliness.

Mobil 1 15W-50

Winning, race-proven technology: A heavier viscosity oil made with a proprietary blend of ultra high performance synthetic base stocks fortified with a precisely balanced component system for dynamic lubricant protection. Meets or exceeds many of the toughest industry standards and proven in racing applications.

Mobil 1 Racing 0W-50 & 0W-30

High-performance, fully synthetic formulas developed specifically for racing engines. Specially balanced for friction reduction and optimum horsepower with outstanding wear protection.

Mobil 1 Supercar 0W-40 & 5W-50

A dexosR™-approved motor oil designed to provide maximum performance on both the track and street. Specifically developed to offer both cold start and wear protection. For now, Mobil 1 Supercar 5W-50 is exclusively for the 2023 Corvette Z06 powered by the 5.5L LT6 engine, the highest horsepower, naturally-aspirated production V-8 found in a production car today.

Benefits of Mobil 1 Racing™

Mobil 1 Racing Oils

Mobil 1 Racing oils are race-proven full synthetic motor oils specifically designed to maximize horsepower while not sacrificing engine protection. Available in 0W-30 and 0W-50 viscosities.*

Low Viscosity

Low viscosity synthetic base oils help reduce engine wear at startup while maximizing horsepower under race conditions due to reduced pumping losses.

Zinc Levels

The boosted levels of zinc in Mobil 1 Racing oils forms a surface film that helps to protect highly loaded engine components such as flat tappets during race conditions.

*Mobil 1 Racing oils are formulated for on-track use only. They are not recommended for street use due to boosted levels of zinc, which may reduce the effectiveness of a vehicle's catalytic converter.

One-stop shop at your dealership

Whether you're a racer or an enthusiast, when you order a Chevrolet Performance crate engine[^] you can purchase the proper oil for your needs directly from your Chevrolet Performance dealer.

Engine [^]	Off-Road Use	Track Use
