For the past century, ACDelco's belts and hoses supplier, has been powering progress as one of the world's leading parts manufacturers in the automotive industry, working with virtually every Original Equipment Manufacturer worldwide to design products for new vehicles as they are being developed. These strong relationships together with their commitment to continuous innovation, enable ACDelco to offer a complete line of OE quality belts and hoses for the Aftermarket. For both import and domestic vehicles, you can be confident every time you sell or install ACDelco belts and hoses.
