

# Hub, Rotor & Caliper Bracket Bolt Kits

Ford Transit 150/250/350/350HD/E Front and Rear with Single Rear Wheel

**Your customers can drive free from squeaks with these quality OE fitting replacement bolts**

Take a look at these direct replacement bolts the next time you do hub, rotor and caliper work on an applicable Ford Transit.

Knowing bolts need to be changed every time you replace these brake parts – our **Gold Bolt Kits** will help you make a seamless replacement – with parts made to fit the original brake systems.

- Kits contain single-use bolts that are direct replacements for original single-use bolts on certain vehicle years, makes, and models
- Bolts are designed and tested to fit original brake systems for like-new performance.
