

Professional POLICE BRAKE PARTS AND ROTORS

TESTING PLATFORM – 2013-2018 Ford Explorer Police Interceptor

■ REPORT NUMBER 170002

Police applications are demanding. That's why ACDelco Professional Police Brake Pads and Rotors are designed with those high-stress needs in mind. The LINK Conformity Assessment is a voluntary program to **predict vehicle performance for stopping distance** using Federal Motor Vehicle Safety Standards (FMVSS) requirements. Although mandatory certification for individual brake components is not required, ACDelco continues its **tradition of extensive testing**, combined with **reliable** and **proven** suppliers for friction materials and accredited testing services.

TechConnectCanada.com

■ POLICE BRAKE PADS

Exceptional performance for the high-stress environment in which they operate, featuring:

- Confident high speed braking
- Helps with Brake Pad Life
- Higher durability than standard Professional Brake Pads
- AMP3™ Testing – Tested to SAE J2784 and FMVSS 135 protocols for braking effectiveness, along with Noise/Vibration/Harshness (NVH) and durability/wear testing for quality
- Quality assurance from a constrained shim – affirmed by with the ACDelco logo found on the part
- Steel mechanical attachment
- Quiet operation

■ POLICE BRAKE ROTORS

Superior stopping power that supports critical police applications.

- Specifically weighted to dissipate heat faster than standard Professional Brake Pads
- High Carbon iron metallurgy is used to dampen brake noise and vibration for quiet arrivals
- Faster recovery rate than standard Professional Brake Rotors due to high carbon content and police-specific vane configuration, which helps reduce brake fade at high temperatures
- Protective polymer binding coating helps shield the rotors from the elements for maximum durability

■ SERVICE VEHICLE CALIPERS

- 54 SKU's covering domestic vehicles
- Loaded with severe duty pads
- High temperature silicone boots and lube

WARRANTY*

12 MONTH/
20,000 KMS

WHICHEVER
COMES FIRST

*Warranty against defective workmanship or material only. Excludes rust resulting from the removal of the protective coating due to brake friction, normal wear & tear and warping caused by the use of other parts in the braking system that are not approved by ACDelco. Other terms and limitations apply. See the customer warranty statement for details. *Replacement parts only. Commercial passenger cars.
